## Destination Startup® + SIREUS Event

A collaboration among leading research universities and federal laboratories across the Intermountain West to showcase the best companies from our innovation ecosystem. Conference in Boulder, Colorado **on February 15-16, 2023.**

Boulder tops the Bloomberg list of cities with the highest brain concentration index in the US since several years back. Boulder is a unique knowledge hub with a mix of university research and federal labs (33 federal labs in CO alone), and a high concentration of venture capital and high-tech companies including a major Google research hub.

SIREUS is exploring the possibility for a SIREUS event in conjunction with the annual flagship event for research institutions and federal labs, Destination Startup.

The SIREUS event starts in Boulder **on February 14<sup>th</sup>** and is organized by SACC CO & SACC AZ. The program includes a university round table (potentially on **February 17<sup>th</sup>**), visits to federal labs, knowledge exchange and networking with top investors, high-tech companies and government agencies. The target participants are **university-based startups from Swedish universities within life science & clean tech** as well as university personnel within research and innovation/tech transfer.

SIREUS will pick up the costs for the SIREUS event and plan to reimburse SACC CO & SACC AZ as appropriate.
